**MEMORANDUM FOR: CIA Member, CCPC**

**SUBJECT : Briefing Memorandum for CIA  
Member, USIB, dtd 24 Nov 65**

I wish to have added to Paragraph 5 the following sentence: "The Directorate for Science and Technology does not concur in the present wording of the recommendation of the Directorate for Intelligence in Paragraph 4." The DD/S&T believe that the DCI China coordinator should report to the DCI rather than to USIB as a matter of routine, and that such reports should be developed and scheduled only after consultation with appropriate agencies and CIA Directorates.
